SUMMARY

Backend developer with 2 years of experience building RESTful APIs and web applications using Python and Flask. Comfortable working with SQL databases and deploying applications on Linux servers. Strong Git workflow and collaborative team player.

EXPERIENCE

Junior Backend Developer — TechFlow Solutions, Amman

June 2023 – Present (2 years)

- Developed and maintained REST APIs using Python and Flask serving 10k+ daily requests.
- Designed and optimized SQLite and PostgreSQL database schemas for multiple client projects.
- Wrote unit and integration tests, reducing production bugs by 30%.
- Managed codebase using Git with feature-branch workflow and code reviews.

Backend Intern — Innovative Web Co., Irbid

Jan 2023 – May 2023

- Built internal tooling with Python Flask for automating report generation.
- Set up and maintained Linux development environments.

EDUCATION

Bachelor of Science in Computer Science — Yarmouk University, Irbid

2019 – 2023
